

OUR PROGRAM IS CENTERED ON NURTURING INDEPENDENCE AND OPTIMIZING RECOVERY FOR INDIVIDUALS 18-59 YEARS OF AGE.

We are one of the only Special Care Nursing facilities (SCNF) in the state of New Jersey to receive Medicaid funding for both short and long-term care with continuous therapy and specialized programming for individuals with a wide variety of neurological impairments.

## Our Mission

Allaire Rehab and Nursing provides personalized services to individuals from throughout the country with neurological impairments for short term or long term rehabilitation so that every resident has access to the opportunities and education to achieve their highest practicable level of functioning and quality of life.

## Our Vision

To be the premier post-acute neurological program for young adults by providing innovative and personalized services to maximize their unique potential.

**Dr. Steven Neuman, MD**  
Director of Physical Medicine & Rehab

*Dr. Neuman is our physiatrist who is board certified in Physical Medicine and Rehabilitation. He specializes in the rehabilitation of patients who have suffered polytrauma, spinal cord injuries, traumatic brain injuries, amputations and all types of musculoskeletal injuries.*

*Dr. Neuman completed his undergraduate training at Penn State University, graduating with a B.S. in Biomedical Engineering. He then attended medical school at Robert Wood Johnson Medical School, followed by an internship year in internal medicine at Jersey Shore University Medical Center. Following his residency in Physical Medicine and Rehabilitation at the Kessler Institute for Rehabilitation, Dr. Neuman completed a one-year Musculoskeletal Medicine Fellowship through the Rutgers-Kessler Program.*

## A Collaborative Approach

Dr. Neuman and our team at Allaire Rehab & Nursing excel at treating conditions ranging from very mild to severe functional impairment. Following an extensive initial diagnostic evaluation with Dr. Neuman and our staff, an individualized course of treatment is determined. Dr. Neuman and our team of physicians, therapists, nurses and other professionals are dedicated to staying abreast on any advances in the field of pain management.

**Ryan Ahern, MS, OTR**  
Horizons Neurological Program Director

*Ryan Ahern brings his strong clinical experience as an occupational therapist in multiple settings ranging from school based, outpatient, acute, subacute and long-term care. He is focused on developing meaningful programming tailored to support every resident.*

*Ryan works alongside the interdisciplinary team to promote successful outcomes that meet each resident's unique needs.*
